

Dave Potts Select's Business Development Manager

'Our investment in Tagtronics security software is a further commitment to our clients as detailed reports of time of attendance, mobile patrols and guard activity are logged in real time and all the data is made available to our clients on request or they can dial into their own accounts to see any information that they may require online'

Select Security tackle 'issues' with 'solutions' thanks to their partnership with Tagtronics Patrol.

Benefits Achieved

- Detailed reports of time of attendance, mobile patrols and guard activity
- Manage and control staff more effectively
- Protect lone workers
- Present data to clients that they may require through a web portal

Tagtronics formed a partnership with North West based security service providers Select Security. This has seen Select Security invest in Tagtronics complete security solution. The bespoke order, implementation and support put in place for Select Security includes Tagtronics 'Active Guard', guard tour solution and also their 'Complete Security Software'

Control and manage guards

Eric O'Callaghan Select's Health and Safety Manager explains; 'The Tagtronics Active Guard System is cutting edge technology and should be the industry standard. It allows us to manage and control our staff more effectively with the ability to defuse potential situations before they occur'

'The device is fitted with a panic button and the ability to have a two way conversation with our officers at any time. This is a big plus for us and exceeds the essential health and safety and lone worker regulations'.

Aftercare and support

Mike Williams Managing director at Tagtronics 'As a company we pride ourselves on offering the very best in security software and hardware solutions, saying this our service doesn't end there. We aim to provide excellent support and implementation of all our products and we pride ourselves on the relationships we build with our partners. Select Security is a great example of this and our relationship with them has allowed us to work very closely to help them get the very best out of the solutions we offer.
