

# Tagtronics

## **Job Title: Software Trainer**

Darwen, Lancashire

### Job Description:

Tagtronics is an established software company looking for an experienced IT trainer to join our team to deliver end-user training at customer sites throughout the UK.

Location: based at our head office in Darwen, Lancashire

The purpose of the role itself is to provide training on the organisations suite of software products (experience in training other Home Care or Security software solutions would be a distinct advantage)

### Experience Required

A proven track record of delivering effective IT training

Passionate about delivery, user experience and quality

The ability to adapt teaching and learning techniques required to support varying degrees of delegate

Strong motivation skills

Good team-working skills

Customer focused and able to deliver exceptional customer service.

Excellent oral and written communications required to clearly convey and receive information and ideas.

You will be required to work unsupervised therefore will have a disciplined approach to time management

The successful candidate must be prepared to travel 500 + miles per week. Overnight stays as required.

## **Salary up to 25K DOE**

Country: United Kingdom

Location: Lancashire

Town/City: Darwen

Type: Permanent

Hours: Full-Time
